5. Browse through your files and select the jpg that you would like to upload.

6. For this example I have selected event4. If you want to add more than one picture click on “Add More” and repeat the steps. Once you have selected all of the pictures that you wish to upload click on “Upload Photos and Videos”. You must make sure that the image is dotted as public so that it is viewable on the webpage.

8. Enter the names of the people if you know them in the title and tags of the picture. If you are adding photos to a new event that you have not uploaded photos for yet then you want to click on “Create a new set” and name the set for the Club City, Name of Event and Year. In the description you can just copy and paste the name of your new set or add a description of the event. Then click “Create set”. If you are adding photos to a set that you have already created then simply select that set to add to.
